Program to replace '\' with '/'

In [15]:

```python
address = input('Please enter the address where"\\" needs to be replaced with "/":\n')
```

Please enter the address where"\" needs to be replaced with "/":
C:\Users\xxx\Documents\0x0xPython\0Python4DataScienceMLbootcamp\Refactored
_Py_DS_ML_Bootcamp-master\13-Logistic-Regression

In [3]:

```python
type(address)
```

Out[3]:

str

In [16]:

```python
address.replace('\\','/')
```

Out[16]:

'C:/Users/xxx/Documents/0x0xPython/0Python4DataScienceMLbootcamp/Refactore
d_Py_DS_ML_Bootcamp-master/13-Logistic-Regression'
